SPECIALISTS IN HEAVY LIFTING, HEAVY TRANSPORT & ENERGY SOLUTIONS

WITH THE LARGEST FLEET OF CRANES AND HEAVY EQUIPMENT IN
THE MIDDLE EAST

AL FARIS GROUP

Founded in 1992, we are a family-owned business renowned for our operational efficiency and performance results across the MENA region.

With state of the art heavy equipment, integrated services and best practices in QHSE; we provide – safe, innovative and reliable solutions for Heavy Lifting, Heavy Transport and Energy Projects.

Our comprehensive network of depots and dedicated teams of professionals are ready to fully serve your needs, using local knowledge and global experience while upholding the highest standards of quality, safety and integrity across all our operations.

TURNKEY INTEGRATED SERVICES. YOUR ONE-STOP SOLUTION!

- Equipment rentals with well trained operators
- Consultancy with innovative engineering techniques
- Technical assessments and plans
- Project Management with dedicated staff
- 24/7 fully equipped mobile workshops and maintenance

OUR EXPERTISE

- Critical heavy lifting services
- Transporting abnormal oversized loads
- Plant maintenance and shutdowns
- Rig transport, lifting & drilling rig specific heavy equipment supply
- Manage complete logistics chain including lifting, load-outs and load-ins
- Project cargo handling
- Temporary power plants with hybrid power solutions

OIL, GAS & PETROCHEMICAL

Plant shutdown and maintenance projects

CIVIL ENGINEERING & CONSTRUCTION

Construction support services for bridges, islands, metros & other infrastructure projects

POWER GENERATION

Transporting and lifting high-value components such as transformers, boilers, turbines among others

Our Core Industries

MARINE & OFF-SHORE

Transporting and installing rig legs, rig carriers and other accessories.

SHIPPING & LOGISTICS

End-to-end transport solutions

RENEWABLE ENERGY

Heavy lifting, heavy transporting and skidding projects.

MANUFACTURING

Lifting and moving heavy loads in confined spaces.

Heavy Lifting Solutions

Offering our clients turnkey tailor-made lifting solutions for all kinds of construction, expansion and maintenance jobs with the best suited manned equipment.

We are not your usual equipment rental company.

We take on an **ENGINEERING** and **PROJECT MANAGEMENT DRIVEN APPROACH** on all our projects.

- Specialised equipment rentals
- In-house rigging studies with detailed risk analysis and project specific method statements
- Jacking and skidding
- Proof load testing and load weighing
- 24/7 on-site support with mobile workshops

CORE EQUIPMENT

ALL TERRAIN CRANES

LATTICE BOOM CRAWLER CRANES

TELESCOPIC CRAWLER CRANES

ROUGH TERRAIN CRANES

TRUCK MOUNTED CRANES

SPECIAL PURPOSE FORKLIFTS

Alternative Lifting Solutions – **Jacking & Skidding**

In confined spaces where using cranes is not possible we offer our clients tailor-made jacking and skidding techniques to move heavy loads which is cost effective and safe.

**HYDRAULIC
GANTRIES**

**SKIDDING SYSTEM -
MODULAR
PUSH & PULL UNIT**

**EVO SERIES
SYNCHRONOUS
JACKING SYSTEM**

**CUSTOM BUILT
MODULAR TOWERS**

Heavy Transport Solutions

Transporting heavy abnormal loads anywhere, anytime!

We provide turnkey project support to our clients from transporting and off-loading to installing extremely over-sized loads.

- Specialised equipment rentals
- Turnkey solutions from source to destination
- In-house engineered route analysis and plans
- 24/7 on-site support with mobile workshops

CORE EQUIPMENT

HYDRAULIC TRAILERS

SELF PROPELLED MODULAR TRANSPORTERS (SPMT'S)

LOW BED & FLAT BED TRAILERS

WE ALSO PLAN AND EXECUTE ROUTE MODIFICATIONS WITH SPECIAL PERMISSIONS.

Others

- Dolly trailers
- Off-road trucks
- Extendable trailers
- Modular multi axle hydraulic trailers

Energy Solutions

Al Faris Energy provides turnkey hybrid power solutions for short-term and long-term power requirement.

24/7 on-site support

ENERGIZING YOUR FUTURE

MARKET LEADER AND MOST RELIABLE SERVICE PROVIDER

- Specialised equipment rentals for short/long term
- Site infrastructure
- Plant design & application engineering
- Transport, installation & commissioning
- Fuel management
- Operation & maintenance
- 24/7 breakdown support
- 24/7 sales support
- Highly skilled manpower services
- HSE audit

Consultancy and innovative engineering

We provide our customers with professional consultation and in-house technical assessments for all types of projects we undertake, prior to execution.

- ▣ Detailed site surveys
- ▣ Review ground bearing pressure and stability calculations
- ▣ Provide computer aided lift plans, method statements and configurations
- ▣ Engineered rigging studies
- ▣ Carry out extensive route planning, identify obstacles and feasibilities
- ▣ Execute engineered route and site modifications
- ▣ Load distribution analysis with special lifting devices; beams, spreaders and triangles

Rig transport, lifting **and drilling** rig specific heavy equipment supply

Special purpose **FORKLIFTS**

Upto **52t** with **load stabilizer** and **coil ram** attachments.

INDUSTRY APPLICATION

- Ports & terminals
- Steel industry
- Metal industry
- Logistics and distribution
- Renewable energy industry
- Rig sites/oil fields & other heavy industries

CORE SERVICES:

- Complete solutions for rig moves and re-location
- Testing rig BOP's (blow-out preventer)
- Consultancy, route surveys, pre-planning, permissions etc.
- Strategic equipment supply

**WHEEL LOADERS WITH
SPECIAL ATTACHMENTS**

**RIG TRANSPORT
PRIME MOVERS**

BOP TESTING

SUPER SUCKER 4000

MUD HAULAGE TANKER

At Al Faris we are fully equipped with all the requirements for Rig moves – transport and lifting with our fleet of cranes, large forklifts, haulage trucks, trailers and other special vehicles, operated by trained field personnel.

FEATURES

HEAVY DUTY
EQUIPMENT & ATTACHMENTS

PRIORITIZING SAFETY
& OPERATOR ERGONOMICS

**DESIGNED FOR MAXIMUM
PRODUCTIVITY**

ECO DRIVE
AXLE

TURNABLE
DRIVER SEAT 180°

**Load stabilizer
attachment upto 16t**

**Coil ram attachment
upto 45t**

**Container forklift
1t - 10t**

**Reachstacker
45t**

The biggest installation lift of the **New Etihad Rail Project**

Hopper:
14m width
14m length
8m height
169t weight

Transporting and installing **4 Hoppers** along with **2 conical** sections.

Hopper:
9m width
9m length
9m height
181t weight

Solar Park project
in Dubai, UAE.

The **52m** long and **235t** tanks were transported using our **Mercedes-Benz Arocs SLT** trucks and **Goldhofer THP/SL** conventional hydraulic trailers. At the project site, the overflow tanks were lifted using our **Liebherr 400t** crawler crane.

Land transport, loading
and sea transport of **two**
cold boxes from
Ras Al Khaimah
to **Abu Dhabi**.

Our work on the **Museum of the Future**

From **transferring** of building materials during the excavation phase to conducting **complex lifts** of facades on the inner layer of the building and installing the **pedestrian walkway bridge** which connects the Dubai Metro to the MOTF, we were part of many heavy lifting activities in every stage.

Transportation of a HP inlet separator (92t) and Feed gas separator (252t) within JAFZA and from JAFZA to Abu Dhabi

Al Faris Group assisted in the **relocation, transportation and erection of massive structures** which are the biggest of its kind in the mining world!

We relocated the entire loads (**Tipper car, Bucket wheel stacker reclaimer and Ship loader**) in one piece without dismantling.

Load 1: Tipper Car
Dimension:
Weight - 600t
Length - 77m

Load 2: Bucket wheel stacker reclaimer
Dimension:
Weight - 2100t
Length - 98m

Load 3: Ship loader
Dimension:
Weight - 1650t
Length - 128m

HP inlet separator:
6.34m width
10.95m length
5.81m height
92t weight

Feed gas separator:
7.2m width
19.82m length
9.53m height
252t weight

EXPO 2020

Lifting and **installation** of **42** structural steel elements for the **UAE Pavillion** at the **Expo 2020** site

Lifting of **42** structures weighing from **8t** to **55t**

Transportation of 336.6t Buoys on 2 rows of 10 axle self-propelled modular trailers

15.92m width
16.4m length
12.4m height
336.6t weight

15.92m width
16.4m length
12.4m height
336.6t weight

AL FARIS FLEET

We continuously invest in the latest technologically advanced equipment with economical performance resulting in cost saving for our clients. Our fleet of equipment is owned and maintained by AL FARIS, allowing us to deploy a wide range of equipment ANYWHERE, ANYTIME!

AL FARIS QHSE CULTURE

Apart from the quality of the equipment, we provide a strong commitment to investment in the development of HSE practices which is our focus across all our operations. Our safety, health and quality standards are well integrated in our daily work, training and all on-site jobs.

AL FARIS PROFESSIONALS & TRAINING

We at Al Faris Group are a team of over 3000 professionals. All our project crew are well trained to International Standards with on-going training for further development and enhancement of skills pertaining to their respective jobs. We provide dedicated special-ised crew for all your projects.

Load testing & weighing solutions

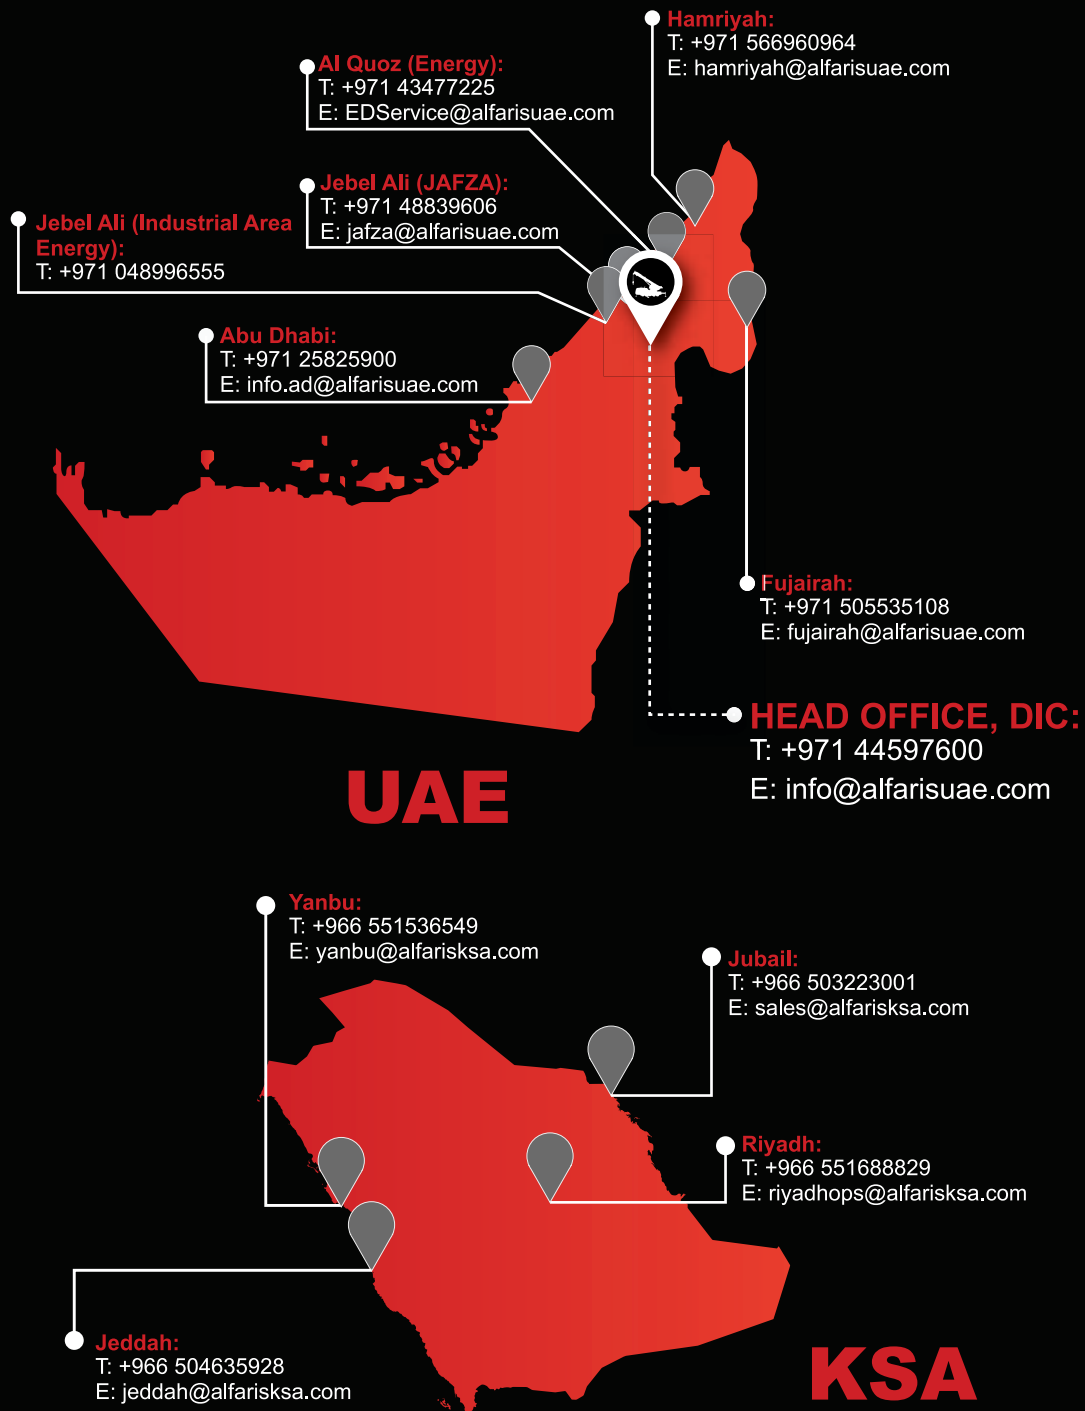

Al Faris has become a market leader in the procurement and distribution of test loads and weighing systems.

- Supply of certified calibrated test weights
- In-house designed and calibrated test weights
- Load testing of all types of lifting equipment
- Load testing of onshore oil drilling equipment
- Load weighing and COG calculations
- In-House customised spreader frames
