Our Snapshot

SPECIALISTS IN HEAVY LIFTING, HEAVY TRANSPORT & ENERGY SOLUTIONS

WITH THE LARGEST FLEET OF CRANES AND HEAVY EQUIPMENT IN
THE MIDDLE EAST

AL FARIS GROUP

Founded in 1992, we are a family-owned business renowned for our operational efficiency and performance results across the MENA region.

With state of the art heavy equipment, integrated services and best practices in QHSE; we provide – safe, innovative and reliable solutions for Heavy Lifting, Heavy Transport and Energy Projects.

Our comprehensive network of depots and dedicated teams of professionals are ready to fully serve your needs, using local knowledge and global experience while upholding the highest standards of quality, safety and integrity across all our operations.

TURNKEY INTEGRATED SERVICES. YOUR ONE-STOP SOLUTION!

- Equipment rentals with well trained operators
- Consultancy with innovative engineering techniques
- Technical assessments and plans
- Project Management with dedicated staff
- 24/7 fully equipped mobile workshops and maintenance

OUR EXPERTISE

- Critical heavy lifting services
- Transporting abnormal oversized loads
- Plant maintenance and shutdowns
- Rig transport, lifting & drilling rig specific heavy equipment supply
- Manage complete logistics chain including lifting, load-outs and load-ins
- Project cargo handling
- Temporary power plants with hybrid power solutions

OIL, GAS & PETROCHEMICAL

Plant shutdown and maintenance projects

CIVIL ENGINEERING & CONSTRUCTION

Construction support services for bridges, islands, metros & other infrastructure projects

POWER GENERATION

Transporting and lifting high-value components such as transformers, boilers, turbines among others

Our Core Industries

SHIPPING & LOGISTICS

End-to-end transport solutions

MANUFACTURING

Lifting and moving heavy loads in confined spaces

MARINE & OFF-SHORE

Transporting and installing rig legs, rig carriers and other accessories

Heavy Lifting Solutions

Offering our clients turnkey tailor-made lifting solutions for all kinds of construction, expansion and maintenance jobs with the best suited manned equipment.

We are not your usual equipment rental company.

We take on an **ENGINEERING** and **PROJECT MANAGEMENT DRIVEN APPROACH** on all our projects.

- Specialised equipment rentals
- In-house rigging studies with detailed risk analysis and project specific method statements
- Jacking and skidding
- Proof load testing and load weighing
- 24/7 on-site support with mobile workshops

CORE EQUIPMENT

ALL TERRAIN CRANES

LATTICE BOOM CRAWLER CRANES

TELESCOPIC CRAWLER CRANES

ROUGH TERRAIN CRANES

TRUCK MOUNTED CRANES

FORKLIFTS

Alternative Lifting Solutions – **Jacking & Skidding**

In confined spaces where using cranes is not possible we offer our clients tailor-made jacking and skidding techniques to move heavy loads which is cost effective and safe.

**HYDRAULIC
GANTRIES**

**SKIDDING SYSTEM -
MODULAR
PUSH & PULL UNIT**

**EVO SERIES
SYNCHRONOUS
JACKING SYSTEM**

Heavy Transport Solutions

Transporting heavy abnormal loads anywhere, anytime!

We provide turnkey project support to our clients from transporting and off-loading to installing extremely over-sized loads.

- Specialised equipment rentals
- Turnkey solutions from source to destination
- In-house engineered route analysis and plans
- 24/7 on-site support with mobile workshops

CORE EQUIPMENT

HYDRAULIC TRAILERS

SELF PROPELLED MODULAR TRANSPORTERS (SPMT'S)

LOW BED & FLAT BED TRAILERS

WE ALSO PLAN AND EXECUTE ROUTE MODIFICATIONS WITH SPECIAL PERMISSIONS.

Others

- Dolly trailers
- Extendable trailers
- Off-road trucks
- Modular multi axle hydraulic trailers

Energy Solutions

Al Faris Energy provides turnkey hybrid power solutions for short-term and long-term power requirement.

24/7 on-site support

WE'VE GOT THE POWER

MARKET LEADER AND MOST RELIABLE SERVICE PROVIDER

- Specialised equipment rentals for short/long term
- Temporary power plants
- Hybrid solutions – diesel, solar, bi-fuel, gas
- Plant design – application engineering
- Consultation with 24/7 customer support
- Turnkey solutions including fuel management

CORE EQUIPMENT

GENERATORS

Consultancy and innovative engineering

We provide our customers with professional consultation and in-house technical assessments for all types of projects we undertake, prior to execution.

- ▶ Detailed site surveys
- ▶ Review ground bearing pressure and stability calculations
- ▶ Provide computer aided lift plans, method statements and configurations
- ▶ Engineered rigging studies
- ▶ Carry out extensive route planning, identify obstacles and feasibilities
- ▶ Execute engineered route and site modifications
- ▶ Load distribution analysis with special lifting devices; beams, spreaders and triangles

Rig transport, lifting **and drilling** rig specific heavy equipment supply

CORE SERVICES:

- Complete solutions for rig moves and re-location
- Testing rig BOP's (blow-out preventer)
- Consultancy, route surveys, pre-planning, permissions etc.
- Strategic equipment supply

**WHEEL LOADERS WITH
SPECIAL ATTACHMENTS**

**RIG TRANSPORT
PRIME MOVERS**

BOP TESTING

At Al Faris we are fully equipped with all the requirements for Rig moves – transport and lifting with our fleet of cranes, large forklifts, haulage trucks, trailers and other special vehicles, operated by trained field personnel.

Load testing & weighing solutions

Al Faris has become a market leader in the procurement and distribution of test loads and weighing systems.

- Supply of certified calibrated test weights
- In-house designed and calibrated test weights
- Load testing of all types of lifting equipment
- Load testing of onshore oil drilling equipment
- Load weighing and COG calculations
- In-House customised spreader frames

Reducing equipment downtime and keeping your projects up and running!

With dispatch depots all around the region, we have set up dedicated workshops for service and maintenance.

- State of the art maintenance facilities with trained technicians working to International standards
- 24/7 fully equipped mobile workshops
- Large inventory stock of equipment parts
